## Push in fittings and tube for Drinks Dispense & Pure Water

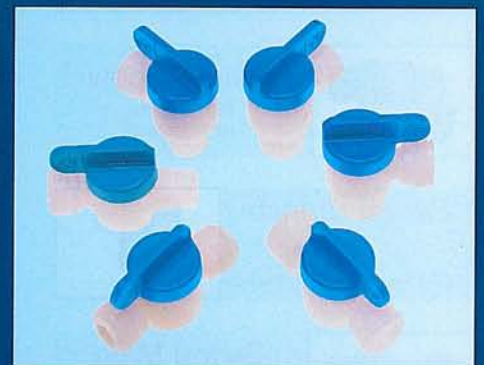

John Guest Drinks Dispense fittings are especially recommended for food quality and potable liquid applications. They are also suitable for air and inert gases and can therefore be used on mixed gas dispense lines and in pneumatics applications and vacuum.

5/32 - 1/2 inch  
4 - 28mm

John Guest Shut Off Valves are manufactured in white polypropylene with food grade EPDM 'O' Rings, in 1/4 and 3/8 sizes for use with potable water.

John Guest LLDPE tubing provides the benefit of a wide range of temperature and pressure suitability. It has broad chemical compatibility and is made from non contaminating materials. Offered in 9 different colours, inch and metric sizes. Materials are FDA approved and the tube is NSF51 and NSF61 listed.
