# NOVA

DESIGNER FAUCET

MIRROR POLISHED

The **Dual Mixer** comes in bright, mirror polished chrome or stylish brushed chrome finish and features ceramic disc valve technology for a smooth, durable action. Precision built in Australia using the best materials, the Nova Mixer complies with Australian standards AS/NZS 3718 and the WELS regulation, carrying a 5 year guarantee.

## INSTALLATION

The NOVA Dual mixer can be fitted through a sink or bench top. The valve incorporates an anti-scald adjustment ring and a flow limiting screw. The purification system connects to mains cold water and uses the same supply as the Dual Mixer. Filtered water is controlled by the pin knob at the base of the Dual Mixer and flows from the second outlet.

The **NEW Nova Dual Mixer**, a sink mixer and filtered water tap all-in-one, offers new levels of function and simplicity in the kitchen.

An innovative mixer performing two essential functions for that clean, minimalistic look...whilst providing an ample supply of sparkling, fresh tasting water at the flick of a lever.

BRUSHED CHROME
