

Now everyone can afford the luxury of showering in filtered water free from the damaging effects of chlorine. The Water Shop is the Australian distributor for Sprite Industries, widely recognised to be the producers of the world's finest shower filtration products.

The filter simply attaches to existing shower fittings, ensuring that toxic by-products caused by chlorine are removed from the shower water.

The Sprite High-Output Shower Filter makes hair softer and is great for people who suffer from dandruff, dry, sensitive skin or allergies.

*Easy to install - just attach between your existing shower head and the shower arm, then enjoy a chlorine-free shower every day.*

One half of our daily chlorine exposure is derived from showering. Not only is chlorine absorbed through the skin, but, as it vaporises in the shower, it is also inhaled into the lungs and transferred directly to the blood stream.

Symptoms of chlorine exposure include dry skin, brittle hair and flaking scalp.

### Features

- ◆ Dimensions: 110 H x 80 W (mm)
- ◆ Weight: 610 gram
- ◆ Filter Contents: Clorogon® & KDF
- ◆ Design:
  - High strength construction
  - Self-sealing threads
  - Patented technology
  - Backwashable & replaceable cartridge
